Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Patil et al.

The claims stand rejected for the reasons set forth in the last Office Action (mailed 6/3/04).

### ***Allowable Subject Matter***

Claims 3-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

As Patil et al is not prior art under 35 USC 103(c) (as addressed in Applicants' Amendment filed 10/7/04), said claims contain allowable subject matter. In particular, there is no prior art of record or suggestion to produce black tea as claimed wherein same results from a process of withering tea leaves to a moisture content of between 64% and 70%, macerating same in the manner claimed and by use of a modified rotorvane machine and wherein fermentation is initiated and the resulting tea has an infusion typical of CTC teas while maintaining the appearance of orthodox tea.

***Response to Arguments***

Applicant's arguments filed 12/7/04 have been fully considered but they are not persuasive. Applicant argues that Patil does not disclose or suggest said tea having the appearance of orthodox tea and that evidence supporting such conclusion has not been provided. However, due to the treatment provided by Patil including the particular steps and sequence of same and how similar they are to those of the instant invention, it is considered inherent that the method therein would result in a product having the infusion of typical CTC teas and the appearance of orthodox tea. Since the tea is referred to as "fermented leaves" which are then dried and sorted, it is considered inherent that same possess an orthodox appearance of the tea (Example 2). In other words, there is no reference to said tea being in the form of granules which would be consistent with tea treated in the conventional CTC manner.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 1761

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
